Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

1. Claims 1-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-22 of U.S. Patent No. 6,402,107. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the Application recite all the steps of the claims of the Patent, except that the claims of the Application are worded differently than the claims of the Patent, and the Application claims "Wild Card" while the claims of the Patent does not.

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3712

4. Claims 1 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Feola.

The patent to Feola discloses a method of playing a card game. The game comprises one standard poker deck of 52 cards including at least one Joker. Alternatively any of the cards may wild cards, col. 3, lines 49-52. To play Feola's game each player places a primary bet 10, and each player may place an optional bonus bet wager (paying a side amount), col. 8, lines 3-13. A hand of seven cards is dealt to each player and a dealer. Each player then selects and keeps their best 5-card poker hand and discards the two other cards, and each player settles their primary wager against the dealer, col. 4, lines 15-22. The bonus bet is also settled against the dealer.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2-14, 16 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Feola.

Feola discloses that "Jokers" may be included in the deck, col. 3, lines 51-52. Determining how many Joker to provide in the deck (two jokers, three jokers, four jokers, etc.) would have been a casino business decision based on players' perception that the player will have a better chance at receiving a high poker hand rank, thus making the game more attractive.

Art Unit: 3712

Concerning claims 2-7, 9-14 and 16-18 determining exactly what predetermined poker hand ranks are considered winning hands would have simply been a casino business decision, which is always obvious in the art. Furthermore, determining what payout odds to assign to the poker hand ranks would have been a casino business decision, which is always obvious in the art.

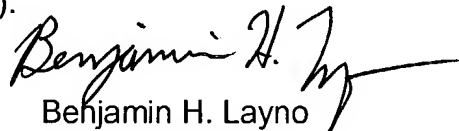

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patent to Dabrowski discloses that seven card stud poker, wherein each player is dealt a hand of seven cards, and must pick the best 5-card poker hand, and determine whether this 5-card poker hand is a winning hand based on a poker hand ranking, is known in the art.
